Sample Shop

Evaluation Report

RepairPal Certification is a rigorous process that ensures only those committed to providing their customers with a high quality and trusted repair experience will pass. During this process we learned a lot about Sample Shop. We have created this report to summarize the scores shown on your RepairPal profile page, provide feedback for your business, and show how you compare to your peers in the RepairPal Certified Network.

Your report has three sections:

RepairPal Quality Index Customer Satisfaction Report Scoring Report

RepairPal Quality Index:

This score reflects all of the information we collected during certification.

Customer Satisfaction Report:

This report displays your Net Promoter Score™ and other results from our unbiased customer satisfaction survey. (Page 2)

Scoring Report:

This breaks down our certification into four categories: Technical Ability, Tools & Equipment, Customer Service, and Convenience. (Page 3)

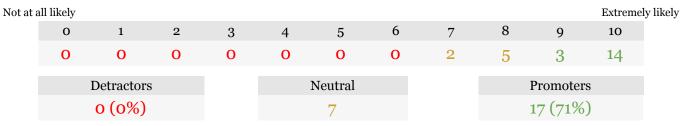

Customer Satisfaction Report

Below is a summary of the responses from 24 of your customers, as well as a description of how your Net Promoter ScoreTM (NPS) was calculated.

Net Promoter ScoreTM (NPS) is used by many industries. It is a measure of your customers willingness to promote your business, based on their response to the question:

How likely is it you would recommend Sample Shop to a friend or colleague?

% Promoters (71) - % Detractors (0) = Net Promoter Score (71)

Your NPS: 71

(Certified Network Average 73)

Scoring Report

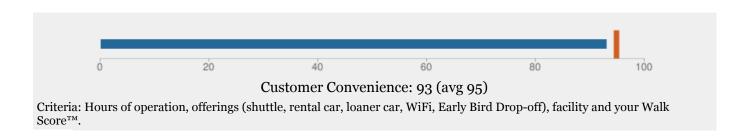

Please contact your Account Manager if you would like more information regarding these scores.

Criteria: Adviser experience, tenure, training, and certifications. Results of your customer feedback regarding: Price paid, Upsell pressure and "Was your car ready when promised?".

Please Note: It's best to compare your scores to that of other Certified shops and dealers, not a score of 100, which is intentionally very difficult to achieve.
